Go Green. Save Green.

LENNOX
HOME COMFORT SYSTEMS

Looking for a new home that offers the ultimate in comfort and convenience and reduces your energy bills? Welcome to an **Ashton Woods PowerHouse Green with ENVIRONMENTS FOR *Living*[®]** (EFL) new home.

All of our single-family homes and town homes are built using a scientific procedure that enhances the performance of your home. Our super energy efficient features dramatically lower your energy costs and can save you an average of 25%-45% every year on utility bills.

With ENVIRONMENTS FOR *Living*[®] (EFL), your new PowerHouse is earth-friendly. That means, in addition to keeping you and your family more comfortable, your new home features more efficient water management faucets, dishwashers, toilets and more efficient lighting. You'll live **healthier, safer** and **greener** than you ever thought possible.

- More energy efficient
- Greater savings
- Quieter interiors
- Fresher air ventilation
- Controlled humidity
- Increased home value
- Improved health

Come and visit an **Ashton Woods PowerHouse Green with ENVIRONMENTS FOR *Living*[®]** new home today.
